To whom it may concern:

My name is Hector G. Diaz, and I am a problem solver.

I have brought the teams I am part of further with my problem-solving skills. For example, while working for a pottery studio, I helped expand the business to start a slip pouring facility and introduced a new firing technique giving the company new products to offer.

Two years ago, I decided to make a career change into software development. I began with self-study and ended with a fourteen-week coding boot camp called Coding Dojo. There I learned three full stacks; Django, MEAN, and Spring Boot. While completing my own assignments, I assisted members of my cohort who were struggling to understand the material. Coding Dojo offered me a position as a TA after graduating because I had demonstrated not only fluency in the material but a knack for helping others.

In addition, I have a background in graphic design. I have managed independent contracts and produced work that exceeds expectations within a deadline. My graphic design experience also gives me a creative perspective that helps me rethink challenges and come up with innovative solutions.

If given the right opportunity at the right company, I will exceed expectations. Let's get together and see if we would be a good fit for each other.

Sincerely,
Hector G. Diaz

Objective:

To use my skills in an entry level position.

Skills:

Frame Works- Angular, Django.

Technologies- MongoDB, Mongoose, jQuery, Ajax, SocketIO, Express, Flask, Material, Bootstrap.

Refrences:

Casey Tschickof
Past employer at
Tschikof Cabinits
208 866 5997

Keren Brown
Past employer at
Mondae's Maker space
208 467 1621

Relevant Education:

Summer 2019, Coding Dojo

Languages:
- The Web Big 3, HTML5, CSS3 and ES5 - ES6
- Python
- Java
- MySQL

Technologies:
- MongoDB & Mongoose
- Express
- SocketIO
- Git
- Flask
- jQuery and Ajax

FrameWorks:
- Built several web applications in Flask, Django, Express, Angular, and Spring Boot. Connected applications to a MySQL or MongoDB server. Each app used RESTful routes with CRUD operations.

- Built several Api's with Express that used RESTful routes with full CRUD operations.

Recent Work Expeirence:

Coding Dojo Tutor:
- 2019-current Online Tutor
- Strong grasp of the basics of several programming languages.
- Help students debug and gain an understanding of key concepts.

Finishing Shop Manager:
- 2016-2019 Tschikof Cabinets in Kuna. Coby Tschikof, co-owner 208 724 0019
- Learned new tools, equipment, and techniques quickly in fast paced, dead line driven environment.
- Received three raise and prompted to manage the finishing facility within a year.
- Constantly researched and implemented improvements.

Slip Pouring Facility Manager:
- 2014-2016 Mondae's Maker space in Nampa. Keren Brown, owner 208 407 3359
- Helped create a specialized facility then promoted to managing it.
- Worked with a team to plan and execute several events.

Other Skills:

- Designed and painted the largest mural in Nampa, ID with another artist.
- Freelance graphic designer specializing in working with non-profit promotional materials.
- Helped local companies with social media marketing focusing on Instagram branding.
